

ORBYT

Deadweight anchorage system with revolutionary design, ideal for use on decks with a maximum inclination of 5°.

The system is simple and quick to install and consists of 10 counterweights of 25Kg each, plus a base part with 2 rotating anchor rings.

This system is certified for the following surfaces:

- Concrete
- PVC
- Asphalt fabric

Norm	EN 795:2012 E + TS 16415:2013 E
Diameter (mm)	1500
Weight (Kg)	270
Load (Kg)	280
Static resistance	>13 kN
Maximum users	2
Angle of use	0-5 °
Lifetime	Unlimited

Materials

Body	Steel
Rings	Stainless Steel
Peg	PVC
