

Product ID:
RG/Ascender/RH

Product Name:
Hand Ascender

Our hand ascender is designed for ascending fixed ropes of widths between 8mm - 12mm and provides a simple and easy use for ascending.

It features a comfortable grip that can be used with one or two hands and allows a natural grip. Upper and lower holes provide easy connection to our RGK1/A screwgate karabiner. The hand ascender can be used for a variety of situations including rescue and hauling techniques.
