

RGL8

TWIN LEG ROPE LANYARD & SHOCK ABSORBER

This twin leg lanyard is produced using 11mm kernmantle rope with machine stitched connection eyes at each end.

An industry standard, and usually the minimum equipment issued/required with a harness for anyone working at height.

The extra leg allows progression between anchor points by means of double clipping, and also optimum safety by ensuring the user is always connected.

The shock absorber pack will deploy in the event of a fall limiting the impact force on the user.

Shock absorber

Accredited to: EN 355:2002

Material: 11mm kernmantle nylon rope

Fittings: 17mm steel screwgate karabiner (RGK1)
Any other compatible EN 362 connectors

Max arrest force: <6kN

Length(s) (including connectors): 1.4m (up to 140kg user)
1.8m (up to 100kg user)

Other lengths available upon request, but would require a minimum order of 30 pieces. Lengths range from 1m to 1.4m for 140kg users and from 1.5m to 1.8m for 100kg users.

* 14 times reduction in bacterial growth, according to ISO 20743:2013 contact with *K.pneumoniae*, commonly associated with healthcare infections such as *E.coli*
